

# Magnetic North

## Alestorm

The snow fell hard on a frozen sea  
As the night swarmed all around  
With no moon to guide or passage north  
This corpse of mine may never be found  
Thirty days, into this dead mans quest  
In search of riches in a time-lost treasure chest  
Through oceans never seen, through fog as thick as night  
To the northern wastelands, onwards we must fight  
Far beyond the ice and snow  
Our voyage carries on  
For blood and gold, we sold our souls  
Redemption lies at Magnetic North  
Set the course for Magnetic North  
Beyond the snow to Magnetic North  
On the quest for Magnetic North  
We will die at Magnetic North  
Sold a lie, condemned to die  
Empty promise encased in ice  
One by one, our time has come  
Death awaits before the sun  
The snow fell hard on a frozen sea  
As the sun rose to the sky  
Trapped forever in the sea of ice  
This is the place where we will die  
Far beyond the ice and snow  
Our voyage carries on  
For blood and gold, we sold our souls  
Redemption lies at Magnetic North (x2)  
Set the course for Magnetic North  
Beyond the snow to Magnetic North  
On the quest for Magnetic North  
We will die at Magnetic North
