It's a Good Day

Deon Q

Chorus:
On a day like today
On a day like today
On a day like today
On a day like today

Verse 1:
Get up out of bed on my own
My mind body and soul are feeling strong
The sun is shining bright and fair
Can't wait for the wind to blow through my hair

On a day like today
Everything is lovely
On a day like today
Everything is fine
On a day like today
Everything is okay
On a day like today
On a day like today
...It's a Good Day

Verse 2:
Get up get dressed, looking fly
I never know if this is the day I'm going to meet that guy
Jumped in the car, turned the radio on
To my surprise, Badu is singing, on and on and on

On a day like today
Everything is lovely
On a day like today
Everything is fine
On a day like today
Everything is okay
On a day like today...It's A Good Day

Days like this
This is what I'm living for
Days like this
Happiness and so much joy

Days like this
You can take it away
Days like this
This smile that's on my face (it's a Good Day)
(repeat all)

On a day like today
Everything is lovely
Everything is fine
Everything is okay

La la La la La La la
oooooo A good Day

On a day like today (like today, like today)
On a day like today (like today, like today)
On a day like today (like today, like today)
On a day like today (like today, like today)
