

Pig Iron

Anti-Nowhere League

Plastic age ...road rage
We got videos, stereos, radios and telephones
 Nubile contractors, nuclear reactors
 Sex scenes in magazines, lazer beams
 And war machines
I have no fear the new age is here... pig iron
Technologyis all just shit to me... pig iron
 Saterlites and motorbikes
 We got smog counts... head counts,
 Silicon chips and breakdowns
 Virtual reality is breeding insanity
 Well, fuck this rat race... shoot me off
 Into cyber space...
I have no fear the new age is here... pig iron
Technologyis all just shit to me... pig iron
 ..Don't touch me...
 ..I'm dirty...
 ..Don't push me...
 ..I'm evil...
 Test tube families
We got ecstasy, heroin, crack, cocaine, amphetamine
sniff it up... jack it up, blow your fucking brains out
 We got star wars, race wars...HIV and BSE...
 I have no fear the new age is here
 Let's fire up the ovens, let's burn the atmosphere...
 I have no fear the new age is here...
 ..pig iron
 ..pig iron
 ..pig iron
