Sacrifice

The Steve Miller Band

I never thought that I'd be without you
I never thought that we'd be apart
You are the sun that lights my world
But I have to go and chace the stars
I know our love is storong enough to make it through this
We gotta say goodbye but this is not the last kiss
Chorus:
Show my your heart can fall in love forever
Tell me you'll wait until were back together
Although we gotta kiss and say goodbye here tonight
It's our bittersweet sacrifice
Love is a long uncertain journey
And sometimes we walk these roads alone

But I know our stars will cross the heavens
Guiding our faithful hearts back home
I know our love is storng enough to make it through this
We gotta say goodbye but this is not the last kiss
Chorus
Forgive me please I can't stay
But I'll be back in your
Open arms someday
Chorus
