Little Remedy

Sandi Thom

Some things are meant to be the way they're gonna be

'Cos you can't stop time or change history

Sometimes all you saw were the things you wanted to see

If you were lookin' for the answer, you would have to go to me'Cos now you've only got a moment, boy To get it right, to get it right, to get it right, to get it right wanted me you'd show me how

'Cos I'm your little remedy if you take me now

'Cos if you really wanted me you'd show me how

'Cos I'm your little remedy if you take me nowSome things in this life, they just pass you by

But they're gone forever in the blink of an eye

This time you gotta do what you always had to do

So open up your heart and show me that you're true'Cos now you've only got a moment, boy To get it right, to get it right.

'Cos I'm your little remedy if you take me now

Oh, if you really wanted me you'd show me how

'Cos I'm your little remedy if you take me nowJust now the minutes keep ticking past

And if you think that our love's gonna last, yeah

Now you've only got a moment, boy

To get it right, to get it right, to get it right, to get it right 'Cos if you really wanted me you'd show me how

'Cos I'm your little remedy if you take me now

Oh, if you really wanted me you'd show me how

'Cos I'm your little remedy if you take me nowOh, if you really wanted me you'd show me how

'Cos I'm your little remedy if you take me now

Oh, if you really wanted me you'd show me how

'Cos I'm your little remedy if you take me nowIf you take me now

If you take me now

If you take me now

So take me now
