Everybody Is A Star

Joan Osborne

Everybody is a star
Who can rain and chase the dust away
Everybody wants to shine
Ooh, come out on a cloudy dayUntil the sun that loves you proud
Oh when the system tries to bring you down
Every hand to shine tonight
You don't need darkness to do what you think is rightEverybody is a star
I can feel it when you shine on me
And I love you for who you are
Not the one you feel you need to beEver catch a falling star
There ain't no stopping till it's in the ground
Everybody is a star
One big circle going round and round
