

Caress Your Soul

Sticky Fingers

So I say
I hate when you're away
I killed you so you'd stay
'Cause you would not behave

Caress your soul

To think that I would hurt you, baby
I only need you near now don't be crazy
There'll be no otherwise and no more other guys
Warm your hands with mine, I'll take you home

Let it be
Now that you are free
My love was far too strong
And you had done me wrong

Caress your soul

To think that I would hurt you, baby
I only need you near now don't be crazy
There'll be no otherwise and no more other guys
Warm your hands with mine, I'll take you home

I swear from this day
This will never be the same
I didn't want no change but I know it won't be long
It hurts to be this way
To be led astray again
You tell me that something's strange and now you are gone

So I say
I hate when you're away
I killed you so you'd stay
'Cause you would not behave

Caress your soul

To think that I would hurt you, baby
I only need you near now don't be crazy

There'll be no otherwise and no more other guys
Warm your hands with mine, I'll take you home
