One Hit Wonder

Tracy Bonham

They call you the one hit wonder
If I could just hit you right, yeah right between
Yeah right between your eyesIf ever a girlie wonder
Could ever be more than just one thing
Yeah more than one thing at a time, a time
More than one a timeI give you my four leaf clover
'Cause God only knows that is
The only one, the only one of mineAnd you'll hear it over and over
Until it is built right in, yeah right into
Your filthy little mind, your mind
Yeah right into yourI own the world, I bought the whole damn world
From the man who sold the world
A million dollar caddy worldSo could you just bend right over
To see how it feels to be
To see just how it feels to be aliveAnd you'll get it over and over
'Cause God only knows that is
The only one, the only one of mine
Of mine, the only one ofI own the world, I bought the whole damn world
From the man who sold the world
A million dollar cranky world
