

# Lost and confused

## The Primary 5

so many days  
ive gone by without a trace  
i dont know what to do and what to say  
to many ways  
for you to come and stay  
in my mind ive waiting for you  
but there is one thing that ive forgot to say  
dont think im changing for you  
never ever  
will you hear me say  
that i cant make it alone  
you just cant change it now  
not before we see that it hasgone through the window  
out its side  
never again to see  
lost in the distance  
dont know where to go  
dont know where to goi have seen you inside the intercom  
what a waste to it all  
dont turn away just look around  
then youll see that its gone  
it bugs me more then words  
thats why you cant see that itsgone through the window  
out its side  
never again to see  
lost in the distance  
dont know where to go  
dont know where to go when the time has come for me to say goodbye  
ill look upon that moment i wont hidegone through the window  
out its side  
never again to see  
lost in the distance  
dont know where to go  
dont know where to go [x2]dont know where to go...
