

Slow Down

[Johnny Reid](#)

Hey, baby, what do you say we roll the windows down
Get lost - take the long way around
Feel the wind on our face
Let the night carry us away

And - slow down

Now, baby, what do you say we just count the stars
One by one here on the hood of this car
Well, let 'em shine - let 'em shine all night
Let 'em watch as I hold you tight

And - slow down
Fall into me right now
And - slow down

Wrap your arms around me
Show me that you love me yeah
