Outerspace

Catey Shaw

I took you to diner when
I couldn't find another friend
We laughed and then you touched my hand
I knew right there and then
I couldn't help it
I felt a feeling deep inside
I wasn't sure if it was right
But then you let me hold your hand
You smiled cause you understand
I couldn't help it no
Was it heaven or outerspace
Cause you must be from some other place
Your eyes won't let me go
I can't help it no
So I hope that it's ok with you
Cause there's really nothing I can do
Your eyes won't let me go
I can't help it no
I can't believe how hard I fell
It shouldn't be so hard to tell
And when your tongue, it touched my lips
I felt it from my head to hips
I couldn't help it no
Was it heaven or outerspace
Cause you must be from some other place
Your eyes won't let me go
I can't help it no
So I hope that it's ok with you
Cause there's really nothing I can do
Your eyes won't let me go
I can't help it no
Was it heaven or outerspace
Your eyes won't let me go
So I hope that it's ok with you
Cause there's really nothing I can do
Your eyes won't let me go
Was it heaven or outerspace
Cause you must be from some other place
Your eyes won't let me go

I can't help it no
So I hope that it's ok with you
Cause there's really nothing I can do
Your eyes won't let me go
I can't help it no
