

# Bring down

## Already Yours

All the earthly aims were formed  
From the earliest pass that climbs  
    In my mind  
Now the joy has burned out and it's gone  
    When the amber skies are filled  
Seems the days around are ripe for conquering  
Now the joy has burned out and it's gone  
    But I don't know where

Bring down, bring down  
    All thoughts  
    Of greatness  
    And leave all to be  
    Sound and nothing more  
    Pray for all to end  
    And silence be all  
Now the joy has burned out and it's gone  
    But I don't know where
