

# Patrick

## June

Is this what you wanted, with your match to catch  
And burn me down with your type of answers?  
Its just how you say it, Patrick, well is it time?  
Hell watch from the window Is this what you wanted? Is this what you wanted? It started off like this  
I know you know, will you go when it's time?  
I know you can light the match, I know you know  
Patrick, you'll go when it's time to burn me down I know you know what, Ill fold, Ill forget, will you? Is this  
what you wanted?  
Now and again through your ears Im listening  
Its just impossible to get your attention  
And it always comes down to just how you say it Come home, when I promise let down  
But would you let me go if the time was right? We will leave this option for you, it started off like this  
Will you go when it's time? I know you know  
I know you can light the match, I know you know  
Will you go when it's time to burn me down I know you know what, Ill fold, Ill forget, will you? To burn me  
down, I won't come home  
But I know you know what I'll fold, I'll forget, will you? Would you go if the time was right?  
Burn me down don't forget to  
Would you go just say you would want to take me?  
Take me, please take me, please take me This fire is almost out, would you go  
If the time was right? This time we fall, would you go?  
Just say you want to take me, take me  
Please take me and burn me down I know you know what Ill fold, Ill forget, will you?  
I won't come home but I know you know what  
Ill fold, Ill forget, will you?
