

Don't Hold Me Back

[Ian Gillan](#)

And that's what dreams are for
knocking at your spiritual door
it' easy. just go with the flow
I told you before When your body is burning
you reach for the light
in the heat of the night
you can't resist, Don't hold me back! And that's what I've been thinking about
breaking in your open heart
it's no big deal. Just go with the flow
I told you before
