I Was Wrong

Sloan

Close your eyes, move with the flow
Compromise, just let it go, it's okay
Look at me, then look away
The sorry state of our lives today until I sayI was wrong
You were right
I was wrong
You were rightOpen up, just let me in
Find that place under your skin where I stay
Remove tomorrow, burn down the past
Stay together and have a blast 'cause I sayI was wrong
You were right
I was wrong
You were rightI was wrong
You were right
You were right
You were rightIt's so easy
It's so easy
It's so easyLook at me, then look away
The sorry state of our lives today, it's okay
Remove tomorrow, burn down the past
Stay together and have a blast 'cause I sayI was wrong
You were right
I was wrong
You were rightI was wrong
You were right
I was wrong
You were right
