

The World Is Far Away

Weeping Willows

At last we're having peace
Our lives are . possibilities ...
It's all set in stone
I always knew for you to make you strong
When nights are cold we are in love. The world is far away and gone to sleep
We're where we are because of where we've been ...
The love and song... We live for all these things
And realize that things will always change...
While life keeps cheating on
My love will be... forever gone...
The world is far away and gone to sleep
We're where we are because of where we've been ...
The love and song...
The world is far away and gone to sleep
We're where we are because of where we've been ...
The love and song...
