

# Prepared

Jill Scott

I been reading my old journals  
Checking to see where my head has been  
And I been apologizing to some people  
Some bridges I needed to mend  
And I been eating more greens  
Getting my body out the line, oh  
I'm gonna be super fine  
And I been lettin'  
Been lettin' some old ideas go  
I'm making room for my life to grow  
I just wanna be prepared, yeah I just wanna be, I just wanna be prepared  
I just wanna be prepared  
Getting myself ready  
For what's comin' for me yeah yeah yeah  
I am (I just wanna be, I just wanna be prepared)  
I just wanna be prepared  
(Prepared) Hear me now  
I been getting recipes off the internet  
Most times they be banging  
I realized they're only good when I put  
My lil' spices all up in rices  
I've been  
You know I've been enjoying people who love each other  
Husband and wife  
Sister and brother  
Father and mother  
I let the queen inside  
I let her shine  
I been listening to God more  
I been doing my chores I just wanna be, I just wanna be prepared  
I've been gettin' myself together  
For what's, for what's comin' to me yeah  
I just wanna be prepared yeah yeah yeah yeah  
(I just wanna be, I just wanna be prepared)  
I just wanna be prepared  
(Prepared) For when I see him at the end of the isle  
With that true heart and that real smile  
Intentions pure  
A love that will endure

I just wanna be prepared  
I, I'm gettin' myself together  
For what's comin' to me comin' to me yeah  
I just wanna be prepared hmm  
Oh

I just wanna be prepared I just wanna be, I just wanna be prepared

Prepared

I just wanna be, I just wanna be prepared

Prepared

I just wanna be, I just wanna be prepared

Prepared
