

8896

LÃƒpsley

You said there is nothin' to hide
There is nothin' to change
Just look into my eyes
And there's old stuff too

And the wind goes round and it follows the back signs
We're running down roads and crossing track stones
Pay for the ticket, just enjoy the seconds
Run away another day

You keep it flying so high
But lock it down low so it feels right
Just look into the sky and it becomes you
Sweep young feel on a dark night
Lifting me up into arms tight
Open up my mind and it becomes you

Nobody seems to, nobody seems to

And it's times like these when you wish you weren't
A 8896 wishing bird
And nobody seems to fly at your level
Just go faster than the others

(Nobody seems to, nobody seems to)
Just got faster than the others, faster than the others
Faster than the others, faster than the others
Go faster than the others
(Faster than the others)
