

# Children of the World United

Angela Bofill

If we're all here to teach each other how to live  
Then we should all be good to one another  
Forgetting about the fights we all had  
And the wars and the tears that we all shed Let's try to understand  
Then walk in hand and hand  
With your fellow man and woman  
Kind is God's plan We'll be singing like the birds  
With music at our words  
Children of the world united I had a dream about a mountain rising high above  
And when we got to the top of the mountain  
We were learning how to love  
And how to live  
How to teach and how to give with all our hearts  
We all could understand  
Then walk in hand and hand  
With our fellow man and woman  
Kind is God's plan We were singing like the birds  
With music as our words  
We were children of the world united We were free as the sun  
We see in the sky  
We were raising our voices  
High in sweet harmony  
Stand up, children  
Singing, children Sing it, baby  
Children of the world  
Each of Aquarius  
So we better start getting serious  
Doo, doo, doo  
Do, do, doo All the pain inside from this land  
Yeah  
Doo, doo, doo, doo  
Children of the world  
Children of the world  
Children of the world united Mmm, mmm Think of the babies  
The young ones coming up  
We got to stop the fighting  
Cause love is the only way  
Mmmm
