Some things

I Adapt

It's really good to see you
Your lookin just as good as I recall
Naw ... nothing's really changed here at all
I heard you moved to Pheonix
So whatcha doing back here in this nowhere town?
And are you staying at your Momma's house?
Me oh yeah yeah I've been doing fine
You should know me well enough to know I'm lyin'
The lights turn red and the lights turn green
The sun comes up and shines on everything
Every day ... Every day
And I still don't know what to do about the way I feel about you
Some things ain't ever gonna change
Some things ain't ever gonna change
Yeah I still see your Daddy

I help him fix his old tractor now and then
Naw ... they don't make em anymore like the two of them
I love to hear him talk about you
I could listen to his stories all day long
Yeah It's almost like you ain't never been gone
We both know you have to walk away
But God knows I'm gonna love you anyway
The lights turn red and the lights turn green
The sun comes up and shines on everything
Every day ... Every day
And I still don't know what to do about the way I feel about you
Some things ain't ever gonna change
Some things ain't ever gonna change
It's really good to see you
Your looking just as good as I recall
Naw ... nothing's really changed here at all
