

I-95

Pamela Hines

They sell posters of girls washing cars and unicorns and stars
guns and roses album covers

They've got most of the barney dvds coffee mugs and tee's that say VA is for lovers but its not round here it's
just for truckers who forgot to fill up on gasoline back up near Aberdeen

Chorus

Its a nine hour drive from me to you south on I-95 and on do it till the day that I die if I need to, just to see you,
just to see you

Hip hop staions fading in and out

All I'm receiving now is a kick drum mixed with static

Constellations are blinking in the sky

The road is open wide and it feels so cinematic till a van
Driven by an elder gentlemen who cuts right in front of me

From now on thats all I see

(instrumental)

Chorus

Its a nine hour drive from me to you
South on I-95 and on, do it till the day that I die
If I need to just to see you just to see you
