

# At Christmas

Kylie Minogue

Last december when we were together  
I remember playing roles forever  
Didn't know, like the snow  
Our love would melt away  
Spring went by and then the summer started  
Mid-july I was too broken hearted  
All the leaves have left the trees  
But these feelings still remain  
Seems I'm not forgetting you  
As quickly as I wanted to  
Now winter's on its way  
Yeah Christmas I can't help but miss you  
The memories of you and me  
Ever green  
It's the time of joy  
But for me it's bittersweet  
And christmas  
I'm still reminiscing about everything we used to be  
C'est la vie  
Yeah I've spent all year wishing you were here like christmas I know moving on is never easy  
Wish my heart could change like the seasons  
Someone send a happy end  
To my winter stale  
Now I'm building me a great big snow man  
When I hold him we'll be two hearts frozen  
All along I'll keep him cold  
To make sure that he stays I am trying my very best  
But now I face the hardest question  
I know festive chants  
Yeah Christmas I can't help but miss you  
The memories of you and me  
Ever green  
It's the time of joy  
But for me it's bittersweet  
And christmas  
I'm still reminiscing about everything we used to be  
C'est la vie  
Yeah I've spent all year wishing you were here like Can't help but think about you when I'm all alone  
Each time I hear Sinatra on my radio

I'd be in christmas heaven  
If only you were present  
Maybe you're somewhere out there on your way to me Yeah christmas I can't help but miss you  
The memories of you and me  
Ever green  
It's the time of joy  
But for me it's bittersweet  
And christmas  
I'm still reminiscing about everything we used to be  
C'est la vie  
Yeah I've spent all year wishing you were here like christmas  
Oh christmas  
Oh oh oh  
Ooooh  
Yeah I've spent all year wishing you were here like christmas
