I Believe In You

Stryper

Time seemed to pass me by
I found myself alone, wondering why
Then you came into my life
And gave your love to me
That showed me the way
In my heart you'll stay[Chorus]
And I believe in you
Whoa-oh through and through
Always and forever it will be
You and me together[Bridge]
I want your love forever
I need your love
You're the only one
That fills my heart
And I love you
More and more everyday[Chorus 2]
And I believe in you
Whoa-oh through and through
Always and forever it will be you and me
I will sing to you and all you do
Always and forever it will be you and me together
