

Bartenders, Etc...

Dierks Bentley

[Chorus] Bartenders, barstools and barmaids
A jukebox and a pocketful of change
Just a few of my favorite things
Bartenders, barstools and barmaids
Bartenders listen when you talk
Barstools are there when you can't walk
And I'll always make a waitress my best friend
Until the music stops and closin' time begins

[Chorus] Outside lies a heart that's been broke
But in here it's a world of song and smoke
That way my eyes and ears can lie to me
While I drink another shot of make believe
[Chorus] Bartenders, barstools and barmaids
