

# This Time

## The Peacocks

I never thought that I could miss  
The touch of your hand or just one kiss  
I never meant to say, "It's over"  
I was a fool to hurt you so  
I had it all and didn't know  
But I still believe, we can be in love again  
This time I'm gonna find a way  
To hold on to the love that I thought we'd lost forever  
This time, I'll find the words to say  
To make it better, let's stay together this time  
I kept my emotions locked inside  
Only to watch love pass me by  
But I've had time to think it over  
My lonely heart has seen the light  
So give me the chance to make it right  
And I pray, I'll see the day when you return  
This time I'm gonna find a way  
To hold on to the love that I thought we'd lost forever  
This time, I'll find the words to say  
To make it better, let's stay together this time  
Please don't say, goodbye  
(Hurting deep inside)  
We can keep our dream alive if we try  
(Baby, this time)  
Oh baby, this time  
This time, I'm gonna find a way  
To hold on to the love that I thought we'd lost forever  
This time, I'll find the words to say  
To make it better, let's stay together this time  
This time, I'm gonna find a way  
(I'm holding on, holding on, yeah)  
To hold on to the love that I thought we'd lost forever  
This time, I'll find the words to say  
To make it better, let's stay together this time
