

Memory

Parade of Lights

We had it perfect almost everyday,
I never thought you'd turn and run away,
A part of me wishes I could change,
Can I do anything to make you stay I'm going to bed, is this who you wanna be
I'm falling asleep, you're just a memory
If I can't have you, even though it's meant to be
I'm falling asleep, you're just a memory Can we just take it back to yesterday,
Got so many things I wish I could say,
I can always hold my breath and wait,
So come on home because it's getting late I'm going to bed, is this who you wanna be
I'm falling asleep, you're just a memory
If I can't have you, even though it's meant to be
I'm falling asleep, you're just a memory
