

# Stalemate

## Ben's Brother

Did I let you down? No  
Did I give you up? No  
So what's it all about now?  
Was it not enough? No, no, noIt's alright, yeah, it's okay, yeah  
It's alright with me  
I'll be fine, yeah, I don't mind, yeah  
I'll pretend at leastBut if you give me something then I'll believe it  
Give me something and I will wait  
But if you give me nothing  
I can't help feeling I'm in stalemate with you  
Stalemate with youUsed to pick me up, yeah, like a sunken pill  
And I've been thinking it through  
And we worked so well  
But it feels wrong, yeahWhen I'm strong alone, yeah, strong alone by you  
And the words you say, yeah  
Just to get your way, yeah  
Well they just won't do, you've got toGive me something then I'll believe it  
Give me something and I will wait  
But if you give me nothing  
I can't help feeling I'm in stalemate with you  
Stalemate with youI need more, I need more  
What are you waiting for?  
It's so frustratingGive me something then I'll believe it  
Give me something and I will wait  
But if you give me nothing  
I can't help feeling I'm in stalemate with you
