

# Worry No More (feat. Rick Ross)

Jennifer Lopez

Do anything that you can to make me feel so protected  
I don't wanna worry no more  
I'd give anything for you to come and help me perfect it  
I don't worry no more, I don't worry no more  
I won't worry  
Wanna feel like I'm brand new  
Even though I gotta have you  
All them other bitches stab you  
They was close enough to grab you  
Ain't no other way they had to  
I'mma always hold it down for ya  
Look at how I move around for ya  
Do anything that you can, to make me feel so protected  
I don't wanna worry no more  
Just want you to know my name  
By the time we exit  
Wanna feel like I'm brand new  
Even though I gotta have you  
All them other bitches stab you  
They was close enough to grab you  
I won't worry no more  
The feeling that you give me is a coke rush  
Addicted to fans and money, white Lamborghini  
My name ring bells, authorities wanna see me  
Born king, that's why she was Nefertiti  
Never been too easy try to stay up out of debt  
Irs is watching me, they follow what's on my neck  
Still onto me but I'm always coming correct  
'Cause all these jewels my niggas wanna collect  
We the biggest in the game so let's just give us respect  
Dance like a star, ass shake like a car  
She really something special I can tell from afar  
Eyes on the check, 8-figures feel the best  
Hustle on the corners, Givenchy be the finesse  
Ex-drug dealer but still got his connects, yeah  
Do anything that you can, to make me feel so protected  
I don't wanna worry no more  
Just want you to know my name  
By the time we exit  
I don't wanna worry no more  
I don't wanna worry no more  
I don't wanna worry

I'ma always hold it down for ya  
Look at how I move around for ya  
I'ma always hold it down for ya  
Move around for ya  
I don't wanna worry no more  
I don't wanna worry  
I don't wanna worry no more  
Hold it down for ya  
I'ma move around for ya  
I don't wanna worry no more  
Hold it down for ya  
Every time I come around for ya  
I'mma always hold it down for ya  
Look at how I move around for ya  
Do anything that you can, to make me feel so protected  
I don't wanna worry, I don't wanna worry no more
