Marvin's Room

Lil' Wayne

Just you and me
I only wanna be with you
Just you and me
I only wanna be with you
I can see you tired of him
Treating you oh so wrong
Looking for the right guy
That would never leave you all alone
And i hate when i get that call
When you sound so sad on the phone
And i know when you get into with him
Cause your whole mood is blown
You should leave him
You should leave him
Cause he dont deserve all the love that you give him
Tell hm deal with it deal with it
Cause all the pain that he cause is still vivid
Oh i hope you feeling my words oh
Cause all i wanna do is kill how it hurts oh yeah
Aye yeah Im just saying you can do better
Aye yeah Im just saying you can do better
Aye yeah Im just saying you can do better do better oh
Im just saying you can do better
Im just saying
Its already July
Look how the time goes by
As anything change
I still pour out tears from thundering rain
Please let me fullfill what your heart is missing
Its more to life than keepng him to try to believe it
You should leave him
You should leave him

Cause he dont deserve all the love that you give him
Tell him deal with it deal with it
Cause all the pain that he cause is still vivid
Oh i hope you feeling my words oh
Cause all i wanna do is kill how it hurts oh yeah
Aye aye aye yeah Im just saying you can do better

Aye aye aye yeah Im just saying you can do better
Aye aye aye yeah im just saying you can do better do better
Oh im just saying you can do better
Issa: Its a process girl Issa Im here for you
Just call me when you need me i be on deck
He bringing you that drama feel like you on set
All the crying all the tears wipe it all away
Got that tsunami love Ima wipe it all away
You say you wanna be in love well lets fall away
Get married on the bball court and ball away
Think a few years in the future when we newly weds
I be your Romeo you be my Juliet
Im just saying baby girl you can do better
Aint tryna toot my horn but i mean who better
Lets take over the world Michelle and Obama
Then go and get lost overseas like Osama
Laid out on the beach somewhere in Bahamas
Dont let him make you mad no need to get pissed off
He aint worth all that baby thats his loss
He was a big jerk now you with a big boss
Aye aye aye aye yeah Im just saying you can do better
Aye aye aye aye yeah im just saying you can do better
Aye aye aye aye yeah Im just saying you can do better do better Oh
Im just saying you can do better
Im just saying you can do
