

River Song

Dennis Wilson

Walkin' down by the river
Water runnin' through my knees
River, oh river moves so free
Oh, mighty river endlessly Oh, mighty river
I would love to be like you
Oh, lonely river
Has not got the time to say I was born into the city life
It's all that I've ever known
You know it's rough gettin' round this place
So crowded I can hardly breathe You can only see about a block or two
In L. A. that's the truth
I'm lookin' for some country life
Some kickin' room no more city life, I want the river Rollin', rollin', rollin' on river
(I got to get away, I got to get away, I got to get away)
Rollin', rollin', rollin' on river
(I got to get away, I got to get away, I got to get away) Rollin', rollin', rollin' on river
(I got to get away, I got to get away, I got to get away)
Rollin', rollin', rollin' on river
(I got to get away, I got to get away, I got to get away)
Rollin', rollin', rollin', rollin' on river It breaks my heart to see the city
I wonder why it ain't pretty
Oh, I want to cry, want to cry Come on, you've got to do it, do it, do it
You got to run away, you got to run away
You got to do it, do it, do it
You got to run away, you got to run away You got to do it, do it, do it
You got to run away, you got to run away
You got to do it, do it, do it
You got to run away, you got to run away
You got to do it, do it, do it
