

# Misfit

## Jools Holland & His Rhythm & Blues Orchestra feat.

You never close your eyes  
You never sleep at night  
You are an emotional nightmare  
You are a misfitYou like to hurt yourself  
And when you don't know why  
You're trapped inside your own hell  
No one else knows your nameSee the misfit in the mirror  
See the freak that lives inside  
See the misfit in the mirror crySee the one nobody wanted  
Shattered by a world of lies  
See the misfit in the mirror dieYou always crash your car  
You're like a permanent scar  
You're just a walking disaster  
You are the opposite of moving fasterWhen you've been pushed around  
When all your walls fall down  
And when they call you misfit  
It's so hard to stop the rageSee the misfit in the mirror  
See the freak that lives inside  
See the misfit in the mirror crySee the one nobody wanted  
Shattered by a world of lies  
See the misfit in the mirror dieI see you and I see  
Everything that I hate  
Darkness all around me  
Makes me suffocateSee the misfit in the mirror  
See the freak that lives inside  
See the misfit in the mirror crySee the one nobody wanted  
Shattered by a world of lies  
See the misfit in the mirror die
