The Gift

Godhead

Go forward
Lift your head up to the sky
There's a better place for you and I
My gift to you
So you'll learn and so you'll grow
Right now it seems you'll never know
How can I live
When all that I have to give
Is something you can't comprehend?
How can I give to you
Something that you never want to see
In me or in you?
Destroy your life: That's what you want to do
Fall backward
Pick yourself up off the ground
Can't you see what I have found?
Look inward
Feel the warmth inside of you
Let eveything you touch be new
How can I give to you
Something that you never want to see
In me or in you?
Destroy your life: That's what you want to do
