Docking Bay 94

Voltaire

Well it's hot as hell out there
and the suns they bake the street
but it's cool in here in this Cantina where we meet
The room is full of faces iv'e never seen before
i guess folks look strange when you run away from homeIt's pretty rough in here there's a guy that pushed me 'round
on my friend he laid a hand and then ended on the ground
then we met a hairy beast and his partner's name is Han
and they got a a ship that shined in the castle runI left all the talking to Obi Wan
and though he's old i think he's the only one
who gets who i am and that i need a change
and his eyes light up when he says my father's nameDocking Bay '94!
That's where we're gonna meet
And they'll take me, take me, off of the dune sea
see, my family is gone and there's nothing left for me
on this wasted wasteland they call TatooineThey say we're off to save a princess
i wouldn't dare to dream or even think it
she'll be so pretty i bet i wont be able to resist her
but then my lucks been so bad mister
she'll probably end up being my own sisterDocking Bay '94!
That's where we're gonna meet
And they'll take me, take me, off of the dune sea
see, my family is dead and there's nothing left for me
on this wasted wasteland they call TatooineWe reached the docking bay...and the ship's a hunk of junk
and i'm worrying if i'll have to ride in the trunk!
then some trooper shoot at us and i'm wondering "what for?"
then Han guns it and blasts us out of Docking Bay '94!Docking Bay '94!
That's where it all began
now the engines are roaring: Goodbye you ball of sand!
We'll visit other worlds to avenge my father's name
one thing's for sure life will never be the same after Docking Bay '94! after Docking bay '94!
