

Count on Me

Jefferson Starship

Precious love, I'll give it to you
Blue as the sky and deep in the eyes of a love so true
Beautiful face, you make me feel
Lite on the stairs and lost in the air of a love so real And you can count on me
Count on my love
Count on me
Count on my love to see you through Emerald eyes and China perfume
Caught in the wheel and lost in the feel of a love so soon
Ruby lips, you make my song
Into the night and saved by the lite of a love so strong And you can count on me
Count on my love, baby
Count on me
Count on my love to see you through Ooh, you can count on me, girl
Count on my love Precious love, I'll give it to you
Blue as the sky and deep in the eyes of a love so true
Beautiful face, you make me feel
Lite on the stairs and lost in the air of a love so real And you can count on me
Count on my love, baby
Count on me
Count on my love, baby Count on me
Count on my love, baby
Count on me
Count on my love
