

Change My Ways

Antiskeptic

You have come
Wipe away the tears and all I've seen
I'm in His place and I know the place that I'm in
fears aside there's light inside of me
And I'm seeing things more like how they could be
Thought I would make it on my own
Thought it'd be fine here on my own
Do you believe that I can change?
Do you believe I'll up and change my ways?
Do you believe then I'll have faith?
That He will clean the slate and change my ways
... right through
You have won
And wiped away the fears and all I've been
I'm, feeling grace, the amazing grace that I need
Years go by with peers beside of me
And I'm feeling safe and sound, but silently
Thought I would make it on my own
Thought it'd be fine here on my own
Do you believe that I can change?
Do you believe I'll up and change my ways?
Do you believe then I'll have faith?
That He will clean the slate and change my ways
... right through
