

# Keep On Truckin'

Tim McGraw

So your top don't pop, and your roll don't rock  
But the clock don't stop cause your feet don't feel the groove  
Your high feels low, and your cash don't flow  
Get up and go, it just ain't in the mood Put your arm out the window, let your hand start surfin'  
Ain't no thing, everything ain't working  
Throw a little love till the world stops hurting, keep on, keep on, keep on  
Everybody going through a little something something  
Sing a little song with a guitar strumming  
Smile on your brother, hey the good Lord's coming  
Keep on, keep on, keep on, keep on truckin' So your dog don't bark, and your flame don't spark  
Your old broken heart, it just can't catch a break  
So your flop don't flip, cause your hop don't hip  
And those suds ya sip, can't take the pain away, no Put your arm out the window, let your hand start surfin'  
Ain't no thing, everything ain't working  
Throw a little love till the world stops hurting, keep on, keep on, keep on  
Everybody going through a little something something  
Sing a little song with a guitar strumming  
Smile on your brother, hey the good lord's coming  
Keep on, keep on, keep on, keep on truckin'  
Keep on keeping on. Keep on riding down that rocky road you're rolling on  
Oh yeah yeah yeah Put your arm out the window, let your hand start surfin'  
Ain't no thing, everything ain't working  
Throw a little love till the world stops hurting, keep on, keep on, keep on  
Everybody going through a little something something  
Sing a little song with a guitar strumming  
Smile on your brother, hey the good lord's coming  
Keep on, keep on, keep on, keep on truckin'  
Yeah keep on trucking. Put your arm out the window, let it go where the wind blows  
Keep on truckin'
