

Over My Head

Aztec Camera

Over my head, over my head
And I can't get free from these chains
Over my head go the things that we said
And I long to be above pain When your heart is broken
Mine's in two
And I'm over my head in blue
Over the love of you Over my head, over my head
And I can't get free from these chains
Over my head go the things that we said
And I long to be above pain When your heart is broken
Mine's in two
And I'm over my head in blue
Over the love of you
