

I Can't Believe I Found You in That Town

Mike Doughty

Oh my days, they were so easy
Till I kissed you in that door
Now my arms, they feel so empty
Like they never did, before And I can't believe I found you in that town
No I can't believe its true
I can't believe just how I'm missing you
You do not call, you never make a sound
No at least not like you made when I was close to you
So sweet and so profound
And I can't believe I found you in that town I don't want, to feel this insane
And I don't want, to call you
But my hands can't stop remembering
The way your hips move And I can't believe I found you in that town
I can't cease to see your face
And I still feel all the traces of this
Feeling I don't want to come around
Let it leave me like a long breath,
Let it dissipate or fade in the background
And I can't believe I found you in that town No I can't believe I found you in that town (x3)
Can't believe I found you in that
Can't believe I found you in that
Can't believe I found you
In that town And I can't believe I found you in that town
I can't believe its true
I can't believe just how I'm missing you
You do not call, you never make a sound
No at least not like you made when I was close to you
So sweet and so profound
And I can't believe I found you in that town And I can't believe I found you in that town
I can't cease to see your face
And I can still feel all the traces of this
Feeling I don't want to come around
Let it leave me like a long breath,
Let it dissipate or fade in the background
And I can't believe I found you in that town And I can't believe I found you in that town (x3)
