Let's Just See

Engineers

I'm dropping out of time
Blown where the wind goes
There's nothing I won't do
There's nothing I won't say
Whether we win or lose
Don't drop a single line
Let's just see how far we can go
Let's just see how far it is
Tried to reverse my pride
All those many miles home
There's nowhere I can't leave
There's nowhere I can't leave
Don't wait to hear the news
No way that I can stay
Let's just see how far we can go
Let's just see how far it is
Let's just see how far we can go
Let's just see how far it is
Let's just see how far it is
Let's just see how far we can go
Let's just see how far we can go
Let's just see how far it is
Let's just see how far it is
Let's just see how far we can go
Let's just see how far we can go
Let's just see how far it is
Let's just see how far it is
Let's just see how far we can go
