

# Let's Just See

## Engineers

I'm dropping out of time  
Blown where the wind goes  
There's nothing I won't do  
There's nothing I won't say  
    Whether we win or lose  
    Don't drop a single line  
Let's just see how far we can go  
    Let's just see how far it is  
    Tried to reverse my pride  
    All those many miles home  
There's nowhere I can't leave  
There's nowhere I can't leave  
    Don't wait to hear the news  
    No way that I can stay  
Let's just see how far we can go  
    Let's just see how far it is  
    Let's just see how far we can go  
    Let's just see how far it is  
    Let's just see how far it is  
Let's just see how far we can go  
Let's just see how far we can go  
    Let's just see how far it is  
    Let's just see how far it is  
Let's just see how far we can go  
Let's just see how far we can go  
    Let's just see how far it is  
    Let's just see how far it is  
Let's just see how far we can go
