

Jupiter Rising

Emmylou Harris

Why don't you call me?
Do you think I won't answer?
Jupiter's risin'
And the moon is in cancer
You been down in the hunger, baby
I been around there, too
Tonight, you could be in the arms of
The arms of a woman who loves you You got your questions
Baby, I got an answer
Or just the hands of a healer
And the feet of a dancer
Yeah, it's all in the wrists now, baby
And when the aim is true
There'll be no blink of the eyes, baby
The eyes of this woman who loves you
(The eyes of this woman who loves you)
(The eyes of this woman who loves you) Heaven's gettin' nearer
Transmission gettin' clearer
Now my love
Stars are fallin' over the ocean
Come on and show a little emotion now
My love Why don't you call me?
You know I'm gonna answer
Temperature's risin'
And the moon is in cancer
There's a road you can ride now, baby
Out to that wild and blue
It runs right through the heart of
The heart of this woman who loves you
Yeah, right through the heart of
The heart of this woman who loves you
