

I Could Not Love You More

Bee Gees

Now that we're not alone
No more hide and seek
You are the highest dream to me
And as you softly sleep
Then I can tell you what it means Locked in my arms like lovers lie
I will not let you slip away
Is this the summer of them all?
Is this my night of nights?
That you came to stay Here you are, owner of my heart
Just the way that love should be
And there is somethin' I must say to you
If you promise to believe
That it's you I'm livin' for
And I could not love you more Seasons may come and seasons go
But these are the truest words I know
Face to face, eye to eye
This is the summer of our lives
One love that cannot die Here you are, owner of my soul
Never let you say goodbye
And there is somethin' I must say to you
We leave the world outside
And you have come to me at last, we start
Open up your heart
Let my deepest love inside
I'm only doin' what I have to do
If you promise to believe
And I could not love you more Here you are
(You are)
Owner of my heart
Just the way that love should be
And there is somethin' I must say to you
Oh we
We leave the world outside
And you have come to me at last, we start
(At last)
Open your heart, oh
Let my deepest love inside
(Love)
I'm only doing what I have to do

If you promise to believe
That it sure meant livin' for
And I could not love you more
