If I Have My Way

Chrisette Michele

You're who I desire, you light my fire
With every kiss you take me higher
Feeling like you're loving I just cannot resist
There's something that's making me hold on
There's no one I would rather share my good loving with
But I promised, I'd wait till I'm ready for this
One day we'll make love passion unheard of
I'll be your woman, if I have my way
We will see heaven, loving together
We won't stop ever if I have my way
I love your touch, it makes me cry, oh
I'm in love so much, look what you've done
Please don't whisper anything else in my ear
My body, my heart and my soul is high
Let me find the strength to get on up outta here
'Cause one day, the way we feel, we'll be alright
One day we'll make love passion unheard of
I'll be your woman, if I have my way
We will see heaven, loving together
We won't stop ever if I have my way
I love you, no doubt about it
I won't change my mind
Love's so true
If I have my way I will make love to you
One day we'll make love passion unheard of
I'll be your woman, if I have my way
We will see heaven, loving together
