

World Without End

[Alison Moyet](#)

Perpetual light
Eternal rest
Grant unto her
Her soul be blessed And her faithful heart
With all pain, depart Lighter than air
Safer in your arms
Borne on the breeze
Welcome in your arms World without end Be there no doubt
Be there no fear
Within your love
Our one glad heart Offered up to you
Our precious soul for you How sweet the refrain
Safer in your arms
Hold us again
Welcome in your arms World without end May we remain
Ever in your guard
Home again
Safely in your arms World without end
Without end
