Ugly

Christina Grimmie

sometimes you look at you and the face you sees not who you want to be
everybody"s got it together or at least that"s what it seems
you try to be like, why you try to be like
whatever they like, I know what it feels like
it cant keep you up all night
don"t let 'em tell you how to live your life
and if they make you feel ugly
just imagine everybody in their birthday suits
imagine everybody in their birthday suits
yeah if they make you feel ugly
just imagine everybody in their birthday suits
imagine everybody in their birthday suits
oh oh, oh oh, funny how it looks when you switch the roles
oh oh, oh oh, never know what's underneath until it gets exposed
and if they make you feel ugly
just imagine everybody in their birthday suits
imagine everybody in their birthday suits
she may look better than you, but, come on, shes vain, she doesnt have a brain
his pants hang lower than yours but he stumbles when he tries to run (no)
you try to be like why you try to be like
whatever they like I know what it feels like
it cant keep you up all night
don't let 'em tell you how to live your life
and if they make you feel ugly

just imagine everybody in their birthday suits
imagine everybody in their birthday suits
yeah if they make you feel ugly
just imagine everybody in their birthday suits
imagine everybody in their birthday suits
oh oh, oh oh, funny how it looks when you switch the roles
oh oh, oh oh, never know what's underneath until it gets exposed
and if they make you feel ugly
just imagine everybody in their birthday suits
imagine everybody in their birthday suits
who cares, what everybody"s thinking, no no
who cares, sometimes its cool to be uncool
who cares, if their ship is sinking
it really doesn't matter 'cause only you know whats good for you

and if they make you feel ugly
just imagine everybody in their birthday suits
imagine everybody in their birthday suits
yeah if they make you feel ugly
just imagine everybody in their birthday suits
imagine everybody in their birthday suits
oh oh, oh oh, funny how it looks when you switch the roles
oh oh, oh oh, never know what's underneath until it gets exposed
and if they make you feel ugly
just imagine everybody in their birthday suits
imagine everybody in their birthday suits
