Dance Away Lover

Head East

Day and night, sittin' alone
Wonderin' where you've been goin'
In my mind I can see your face
And the love that I thought it was showin'Didn't know it was all a mask
And my love wasted devotion
Now I'm here and you're somewhere else
Dancin' with another's emotion, another's emotionI remember the night you captured my soul
And the mind of my own, I lost all control
I knew I had seen you before
In so many of my dreamsLike the dreams you danced away
Leaving only visions for me
Of the dance away
Dance away loverLeading me on every step of the way
You called the tune and you used it well
You danced away and you left me here
Oh dance away, dance away lover, lover, lover, dance awayRepeat 1st and 2nd versesDance away, dance away lover
Carrying on every step of the way
You called the tune and you used it well
You danced away and you left me here
Oh dance away, dance away lover, lover, lover, dance away
Dance away...dance away
