## Behemoth

Honor me Chaldean priests  
Bow to me in adoration  
Evangelize prophets of the boundless joy  
Sanctify the sin of indulgenceWe worship the sun  
We worship the moon  
Spreading like rats  
Exalted above the stars of GodAll hail slain and risen God  
All hail Dionysus  
All hail slain and risen God  
All hail DionysusCome blessed Dionysus, various nam'd, bull fac'd  
Begot from thunder, Bacchus fam'd  
Bassarion God, of universal might  
Whom swords and blood and sacred rage delightWar be sustained, my godless phoenix rise  
Ne'er to lifeless shall I submit  
Offering solely the sword not peace  
Mercy and cowardice extinct withinWe worship the sun  
We worship the moon  
Spreading like rats  
Exalted above the stars of GodAll hail slain and risen God  
All hail Dionysus  
All hail slain and risen God  
All hail Dionysus
