

Where Does the Time Go?

Barry Manilow

Oh, what a time
What a warm an wondrous time
So sweet a shinning moment
In the sunOh, what a time
Was there ever such a time
Then suddenly it's done
The moment passesWhere, where does the time go
Must we let it end
Where, where does the time go
Gone to soon my friendAnd where, where go the echo's
Of our laughter ringing the air
Oh, wherever the time goes
I will see you thereMust we let it endAnd where, where go the echo's
Of our laughter ringing the air
Oh, wherever the time goes
I will see you there
I will see you there
