

Requiem for O.M.M. (Album Version)

of Montreal

When I met you, I was just a kid -- hadn't built up my defenses.

So I gave my heart completely -- Vaseline all over the lenses.

Memories don't go away; I remember every day. I never ever stop wondering, wondering if you still think of us.

I don't need a photograph 'cause you've never left my mind.

No, you've never left my mind. I remember feeling like a ship whose captain was too drunk to steer.

And you watched as I was sinking, waving sadly from the pier.

Memories don't go away; I remember every day. I never ever stop wondering, wondering if you still think of us.

I don't need a photograph 'cause you've never left my mind.

No, you've never left my mind.
