

Hold You Down (feat. Emanny)

Jadakiss

I love you (muah)

Ah, yeah, yo, lot of square feet shopping spree is the minimum

Talk all subliminal in love with a criminal

It's all coming back to the pot no chemicals

She can get hired on the spot no interviews

No carbs, just vitamins, minerals

Riding shotgun in the coop with the general

You go hard for the kid so I'm into you

Yeah, hold you down, that's what I'm finna do No girls would ride, like you do for me baby

That's why I hold you down, that's why I hold you down

Them girls on the side aint' got what I need baby, That's why I hold you down

That's why I hold you down Yo, cash coming rapidly, chicks coming after me

Here cause I wanna be not cause I have to be

You the one I wanna be with ma, actually

I knew you were special cause we hit it off naturally

Had your guards off at first now you're attached to me

Gotta give you all of me, can't give you half of me

You take your time girl, we gonna move carefully

A hot bath water, the meals you prepare for me

When nobody else was, you were always there for me

And I love myself just need you to care for me

You done more than enough, I owe you now

So it's only right that I hold you down No girls would ride, like you do for me baby

That's why I hold you down, that's why I hold you down

Them girls on the side aint' got what I need baby, that's why I hold you down

That's why I hold you down I'd be damn if I let this one get away

She's what I'm wanting and aint' no comparing to you girl

I'll never play with your heart, that's them silly games, no need for looking

Cause there be none compared to you girl Yo, listen I aint' trying to play with you, I'm tryna stay with you with

Ya mean? spend forever and a day with you

Never mind them side chicks and they issues

They ain't nothing but bad luck that they wish you

It aint about them, no its about the 2 of us

They can't stand us to see us doing us

And I told you this is what I go through

But words can't explain it so now I gotta hold you No girls would ride, like you do for me baby

That's why I hold you down, that's why I hold you down

Them girls on the side aint' got what I need baby, that's why I hold you down

That's why I hold you down You in good hands, we gonna be ight, haha, I love you, muah
